

Tech-talk - Predict equipment failure using IoT sensor data

R K Sharath Kumar, Data Scientist, IBM India Software Labs

10-Dec-2018

Agenda

Detailed walk through of the code pattern - **Predict equipment failure using IoT sensor data**

<https://developer.ibm.com/patterns/predict-equipment-failure-using-iot-sensor-data/>

Q & A

IBM Code

Solve real programming challenges.

Code patterns, tech talks, open source projects, developer advocates, dynamic communities, upcoming events—your coding success starts here.

A code pattern provides

- a solution for a specific problem
- provides a 360-degree view of the underlying code, architecture diagrams etc.
- It is a roadmap for solving complex coding challenges.
