Attack speed | ArKnights Wiki | Fandom

This article explains the mechanics of attack speed (ASPD) in Arknight's. Each Operator have a specific "attack interval" value which represents the delay between each attack in seconds (hence, an attack interval of 1.5 means that the Operator attacks once every 1.5 seconds). Note that the game does not specify the operator's exact attack interval, but rather categorizing them into several terms: Slow ...

Arknights PC Version: Available to Download Now!

Arknights is a strategic RPG game that immerses players in a dystopian world of technological progress gone wrong. What humanity originally hailed as a blessing, Originium—a special ore with countless applications—ended up being a curse. The substance infected those exposed to it, and with no known cure, the infected were ostracized and isolated.
